# Welcome

---

Leaving home to study is a big decision. Deciding where to study is an even bigger one. Every year, students from all over the world make the decision to come to the University of Otago, attracted not only by our academic reputation, but also the unrivalled student experience that we offer. The University of Otago is New Zealand's first university, and prides itself on its long tradition of excellence. Whether the programme you are interested in is based at the main campus in Dunedin, or is one of our health science options offered in Christchurch and Wellington, you can be assured of the internationally renowned "Otago Experience".

A strong research culture is fostered across all of the University, and this ensures we offer the highest quality undergraduate and postgraduate courses, with research-informed teaching a feature of all of our academic programmes. No matter which area of the University of Otago you choose to study in, you will have access to top academics and excellent support services.

As well as coming from all over the world to study at Otago, students from all over New Zealand are drawn by the University's reputation for offering a student lifestyle unmatched by any other on offer in Australasia. We offer a comprehensive range of services across the University, as well as additional support in recognition of your unique needs as an international student. We also value the contribution that you, as an international student, make to the life and cultural diversity of both the University and the wider community.

This International Prospectus provides details about many of the things you will need to know to help you make a fully-informed decision about coming to study at the University of Otago. It also provides an insight into life in New Zealand. You can access more detailed information at [www.otago.ac.nz/international](http://www.otago.ac.nz/international) and I encourage you to visit the website and contact us if there is anything more you would like to know.

I wish you well with your decision-making, and look forward to welcoming you to the University of Otago.

A handwritten signature in black ink, reading "Helen Nicholson".

**PROFESSOR HELEN NICHOLSON**

*Pro-Vice-Chancellor (International)*

# Why study at Otago?

*THE UNIVERSITY OF  
OTAGO IS THE LEADING  
RESEARCH INSTITUTION  
IN NEW ZEALAND*

- It has an international reputation for excellence
- Otago is the leading research institution in New Zealand\*
- University of Otago graduates are highly regarded by employers
- It offers an unrivalled campus experience and vibrant cultural life
- International students are strongly supported
- Otago offers an extensive range of undergraduate and postgraduate qualifications across the disciplines – Business, Health Sciences, Humanities and Sciences
- It has an extensive student exchange programme with over 90 partners in 32 countries
- High quality pathway programmes are offered in the University of Otago Language Centre and Foundation Year.

*\*Otago was the only university to be ranked in the top four in all average quality score (AQS) measures in the Government's 2012 PBRF evaluation.*

---

*THE UNIVERSITY OF OTAGO IS PROUD  
TO BE A SMOKE-FREE CAMPUS,  
OFFERING A SAFE AND HEALTHY  
ENVIRONMENT FOR ALL STAFF,  
STUDENTS AND VISITORS TO ENJOY.*

---

The University of Otago is New Zealand's first university, established in Dunedin by early Scottish settlers who had a strong belief in the value of education. This commitment continues today – education is Dunedin's main "industry", and Dunedin is New Zealand's only true university city. Of Dunedin's population of 123,000, almost 22,000 are University of Otago students – and over 2,600 of them are international students.

These students come to Otago from all over the world to take advantage of the University's worldwide reputation for excellence. Otago is at the forefront of modern scholarship and has a long-established tradition of innovation. It is for this reason Otago is able to attract first-rate academics, and our graduates are renowned for their independence and audacity of spirit, which makes them highly regarded by prospective employers.

## A National Presence

The University of Otago has a presence throughout New Zealand. Most undergraduate and postgraduate study takes place on the Dunedin campus, but the University is also represented in Auckland, Wellington, Christchurch and Invercargill. The Schools of Medicine and Health Sciences in Wellington and Christchurch are home to many leading medical researchers, and a large number of Health Sciences postgraduate courses are taught from these campuses.

## Dunedin Campus

The Dunedin campus is located just a few blocks from the centre of the city and on the edge of the Dunedin Botanic Garden. It is a beautiful campus – the Water of Leith winds its way past the iconic stone Clocktower, the state-of-the-art Centre for Innovation, the multi-award-winning Information Services Building and the many character villas that are home to

much of Otago's student population. Students benefit from Dunedin's relatively inexpensive cost of living, and house prices and rentals are affordable, particularly compared to New Zealand's northern cities. It is a safe city in which to live and it is easy to get out and about to take advantage of everything it has to offer – and the ski fields of Central Otago are only a few hours' drive away.

More information about Dunedin can be found on page 53.

## International Commitment

Making the decision to study at a university overseas is a bold one, but provides a valuable opportunity to learn about other cultures, gain maturity and develop the global perspective which is increasingly important for graduates today.

The University of Otago recognises this and is strongly committed to international education. It has collaborative teaching, research and exchange agreements with major institutions around the world (see page 57) and, in addition to the many services and facilities available to all students (see page 48), its International Division provides a range of specialist services for international students. An orientation programme is run at the start of each semester, and international student advisers and student mentors are available to help students make the adjustment to life at Otago and to provide ongoing help and support.

Otago offers a rich cultural life, reflecting a diverse international student community and New Zealand's own multicultural population. It also has a network of over 90,000 graduates living in more than 140 countries and has established alumni branches in many of the world's major cities including London, Sydney, Melbourne and Kuala Lumpur.

The University of Otago is a foundation member of the Matariki Network of Universities (MNU), a select international group of outstanding universities, with each member amongst the oldest and foremost places of learning in its respective country. The MNU has been established to enable the universities to enhance diversity, to share ideas and expertise, and to learn international best practice from each other, recognising the shared commitment to an ethos of excellence in research, scholarship and rounded education. The other members of MNU are Dartmouth College (USA), Durham University (England), Queen's University (Canada), Eberhard Karls Universität Tübingen (Germany), The University of Western Australia and Uppsala Universitet (Sweden).

# Research

Research underpins all academic activity at Otago and the University continues to build on its long-held reputation for research excellence.

The Government's 2012 Performance-Based Research Fund (PBRF) quality assessment confirmed the University of Otago as the leading research institution in New Zealand. Otago was the only university to be ranked in the top four in all average quality score (AQS) measures.

The PBRF ranked Otago first or second in 17 subject areas – including first in four of the 10 top-ranked subject areas: law, pharmacy, philosophy and pure and applied mathematics – and more than 55 per cent of Otago's academic staff were identified as internationally or nationally distinguished.

## Graduate Research

The PBRF evaluation confirmed Otago's position as New Zealand's leading postgraduate research university. Access to research-informed teaching and supervision by acknowledged leaders in their field is vital for postgraduate students: this ranking shows that Otago offers the best in the country.

Otago has the highest proportion of postgraduate research students of any university in New Zealand. Of the more than 4,000 postgraduate students currently enrolled, over 1,350 are doctoral candidates. The University provides a strong foundation for student research through scholarships (see page 12), as well as state-of-the-art library and computing facilities, and excellent supervision.

Otago PhD candidates are supported by the University to travel to leading international conferences to present their research findings. All thesis students receive support and mentorship from their supervisors, and the Dean and Manager of the Graduate Research School are both available for consultation by students should the need arise. The Dean also chairs the Graduate Research Student Liaison Committee, a representative group of research masters' and PhD candidates acting as a forum for student issues.

For further information about graduate research at Otago, please consult the following websites:

PhD: [otago.ac.nz/study/phd](https://otago.ac.nz/study/phd)

Masters': [otago.ac.nz/study/masters](https://otago.ac.nz/study/masters)

## Research Themes and Centres

The University has recognised a number of areas of particular research strength as Research Themes and Research Centres. Many of these are multidisciplinary; they encourage research across a range of academic fields and provide outstanding opportunities, especially for postgraduate students.

Many other areas of strength are listed on the programme information pages of this prospectus.

### Themes

Arthritis Research

Asian Migrations

Aspire 2025 Research for a Tobacco-Free Aotearoa

Comparative and Cross-Cultural Studies

Early Modern Thought

Formulation and Delivery of Bioactives

Full Circle: Māori and Pacific Genetics of Health

Gut Health Network

Health of Veterans, Serving Personnel and their Families

New Zealand Ocean Acidification Research Cluster

Otago International Health Research Network

Oxygen Theme

Polar and Cold Environments

The Kidney in Health and Disease

## Research Centres

Brain Health Research Centre

Centre for Neuroendocrinology

Centre for Research on Colonial Culture

Centre for Sustainability (CSAFE)

Centre for Translational Cancer Research

Christchurch Heart Institute

Edgar National Centre for Diabetes Research

Genetics Otago

International Centre for Society, Governance and Science (SoGoS)

Jack Dodd Centre for Quantum Technology

National Centre for Lifecourse Research

New Zealand Centre for Sustainable Cities

Sir John Walsh Institute for Oral Health

Webster Centre for Infectious Diseases

Individual staff research expertise can be found on the divisional and departmental pages of the website:

[otago.ac.nz/departments](https://otago.ac.nz/departments)

## Centres of Research Excellence

The University of Otago also hosts two Centres of Research Excellence (CoREs); government-funded centres that promote academic enquiry into areas considered of national and international importance. Otago's two CoREs are:

- The Dodd-Walls Centre for Photonic and Quantum Technologies
- Brain Research New Zealand – Rangahau Roro Aotearoa (co-hosted with the University of Auckland).

The CoREs are an exciting opportunity to develop and build on Otago's existing collaborations. They also allow for the development of Otago's own research capacity, as well as nurturing the next generation of scientists.

# Studying at Otago

## Academic Year

The University academic year is divided into two semesters. The first semester runs from late February until the end of June; the second semester runs from early July until mid November. Postgraduate thesis-only students, however, can begin their studies at any time. A Summer School is also offered from early January to mid-February each year. This gives students the opportunity to study one or two papers for credit over a short teaching period and outside the standard semester timetable.

## Programme Information

This prospectus contains only general information about programmes offered at Otago. For information specific to your field of interest, please view the University's website:

[otago.ac.nz/courses/qualifications](http://otago.ac.nz/courses/qualifications)

## Credit Transfer

The University may grant credit/advanced standing for study undertaken at another tertiary institution. Courses completed should be comparable in content and standard to those offered at Otago.

## Study Abroad and Exchange

Students enrolled at a university overseas can choose to study at Otago for one or two semesters. Credits from Otago courses are transferred back to a student's home university. Please contact the International Division for a copy of the University's *Study Abroad and Exchange Guide* or visit the University of Otago website:

[otago.ac.nz/international/studyabroad](http://otago.ac.nz/international/studyabroad)

International students enrolled at Otago are eligible to participate in the Student Exchange Programme.

More information about student exchange opportunities is available on page 57 of this prospectus or on the University's website:

[otago.ac.nz/study/studentexchange](http://otago.ac.nz/study/studentexchange)

## Admission and Enrolment

Please refer to the Application and Costs information from page 59.

## English Language

Specific English language requirements are detailed on page 65 of this prospectus. If your English language skills are not acceptable for admission, you may be required to take an intensive language course at the University of Otago Language Centre.

[otago.ac.nz/uolcfy/uolc](http://otago.ac.nz/uolcfy/uolc)

# Undergraduate Degrees

New Zealand universities generally follow the British model of three-year undergraduate (bachelors') degrees with an increasing level of specialisation and difficulty in each year. A degree almost always includes subjects other than the major or specialist subject, but the major subject is usually studied in every year of the degree.

## Papers

Papers are the building blocks of a degree and comprise a fixed course of work in particular aspects of a subject. Most take one semester to complete; however, some papers, particularly for Health Science degrees, run for the whole year. Introductory papers are at 100-level, increasing to 200-level and 300-level papers in subsequent semesters or years. 400-level papers are generally at the postgraduate level.

## Points

Each paper passed is worth points – mostly 18 points – which students accumulate to achieve a degree. A three-year degree is usually made up of 360 points, with a certain number required at 200- and 300-levels to meet the requirements of a student's major subject.

## Choosing a Major Subject

It is not necessary to make this decision in the first year. A well-planned first year will allow flexibility of choice, but also cover any prerequisites there may be for the 200-level and 300-level papers later chosen. Some students may elect to take a double major, completing 300-level requirements in two subjects.

## Prerequisites and Corequisites

Most papers beyond 100-level have prerequisites: specific papers that must be passed before enrolment in the new papers. Some papers also have corequisites. If the corequisite has not already been passed, it must be taken at the same time as the new paper.

## Teaching

Lectures are the main method of presenting information at undergraduate level. Students also take part in laboratories and tutorials, and are expected to back up new knowledge with reading.

## Workload

A full-time course is generally between 54 and 72 points in a semester, or between 108 and 144 points in a year. As an approximate guide, students can expect to spend about 12 hours per week per one single semester paper (18 points). In general, very able students take 144 points in a year, while most take 126.

## Assessment

Most papers have a two- or three-hour examination or “final” at the end of each semester (or at the end of the second semester for full-year papers) and many papers have shorter tests during the year. Written assignments, presentations and laboratory work also count towards the final grade. Continuous internal assessment is a feature of almost all Otago papers and assessment requirements will be made clear at the beginning of the semester.

## Problems?

Tutors and lecturers will discuss, within class or privately, any problems students may have understanding lectures or tutorials, completing assignments or preparing for examinations. The Student Learning Centre offers a number of services to help students improve study and learning skills.

## Other Options

In addition to three-year bachelors' degrees, Otago also offers:

- Specialised degrees (including Dentistry, Law, Medical Laboratory Science, Medicine, Pharmacy, Physical Education, Physiotherapy and Surveying) which take more than three years to complete and have specific admission requirements
- Double degree programmes which involve cross crediting (sharing) papers between the two qualifications.

# Postgraduate Study

## Teaching and Assessment

The number of lectures and amount of academic contact time will depend on the course. Postgraduate study is more intensive than undergraduate study and requires more independent research. Assessment can be by thesis, examination and/or internal assessment, depending on the specific course being studied.

## Distance Learning

The University teaches some courses by distance learning, allowing people located elsewhere to study. This is particularly convenient for working students who are already trying to balance home life and a full-time job with their study. Many distance-taught courses are available only within New Zealand, but some are available in Australia and beyond. Distance options are denoted by “DT” in the tables included on pages 16 to 45.

Please note that Immigration New Zealand will not normally grant a student visa for study in New Zealand where the intended programme of study is wholly delivered by distance mode and students are not required to be attending classes at an Otago campus or designated centre.

## Postgraduate Study Options

[otago.ac.nz/postgraduate](https://otago.ac.nz/postgraduate)

### Doctor of Philosophy

The degree of Doctor of Philosophy (PhD) is a research-only qualification designed for students who intend to pursue an academic or research career. The degree is awarded on the basis of the submission of a thesis that gives evidence of the candidate's ability to carry out research, and demonstrates that the candidate has shown originality and independence, and has made a significant contribution to knowledge in a particular field. The PhD degree can usually be completed in a minimum of three years' full-time study.

### Entrance requirements

Admission usually requires the completion of a master's degree, or a first-class or upper-second-class honours degree in the same area of study, or a related discipline, as the intended area of research. Applicants for this degree must provide evidence of a research background. They must submit a research proposal and identify a principal supervisor willing to provide full supervision for the thesis.

## Admission

The PhD degree has its own admission process. Initial admission for the degree is provisional and is confirmed only after one year of satisfactory full-time study. Further information on admission requirements and the PhD regulations are available online at

---

[otago.ac.nz/study/phd](https://otago.ac.nz/study/phd)

## Masters' Degrees

Masters' degrees vary in nature at Otago, but most allow for the development of individual research skills. Working from a strong background of study, candidates have the opportunity to contribute to existing specialist fields or to begin to develop new areas of research. Masters' degrees are typically research-only, but some can be a combination of research and coursework, or a mainly coursework programme.

A master's degree is normally a full-time one-year programme for candidates with an honours degree or postgraduate diploma, and a two-year full-time programme for candidates with a standard bachelor's degree. Increasingly, new coursework masters' programmes are being developed which are 1-1.5 years in length and allow entry after a standard bachelor's degree. Such programmes are usually designed to take students from diverse academic backgrounds.

### Entrance requirements

Candidates with an honours degree or postgraduate diploma may apply for master's study by thesis only. In some cases, candidates with a bachelor's degree may apply for a coursework master's degree or for master's study by coursework and thesis.

A master's degree is usually undertaken in the same area of study as the major subject pursued for a bachelor's degree, postgraduate diploma or honours degree. However, some other masters' programmes are available that require only that the candidate is a graduate and/or has appropriate work experience.

[otago.ac.nz/study/masters](http://otago.ac.nz/study/masters)

## Honours Degrees

Most three-year bachelors' degrees have postgraduate honours degrees allied to them (e.g. Bachelor of Arts and Bachelor of Arts with Honours). They involve further papers in the subject of the first degree and a research report or dissertation.

A postgraduate honours degree must normally be completed in one academic year of full-time study. It is possible to undertake honours degrees in more than one subject, or to take a combined honours degree (involving a blend of papers from two subjects).

### Entrance requirements

A postgraduate honours degree can be taken at any time after the completion of a bachelor's degree. It is usually undertaken in the same area of study as the major subject pursued for a bachelor's degree, or in a related discipline, and requires achievement at a high academic level.

## Postgraduate Diplomas

A postgraduate diploma provides a specialist postgraduate qualification and a pathway to research study, extending the knowledge gained in a bachelor's degree. It offers students structured courses and guidance, as well as the opportunity to undertake some independent research. Students are able to focus on a specific area of study while developing research skills.

A postgraduate diploma can usually be completed in one academic year of full-time study.

### Entrance requirements

A postgraduate diploma can be taken at any time after the completion of a bachelor's degree. It is usually undertaken in the same area of study as the major subject pursued for a bachelor's degree, or in a related discipline, and requires achievement at a satisfactory academic level.

## Postgraduate Certificates

A postgraduate certificate is generally a six-month coursework qualification that recognises continuing professional development in the same area as the candidate's original degree. It can usually be completed in one semester of full-time study, or the equivalent in part-time study.

### Entrance requirements

A postgraduate certificate can be taken at any time after the completion of a bachelor's degree. It is usually undertaken in the same area of study as the major subject pursued for a bachelor's degree or in a related discipline.

## Diploma for Graduates

The Diploma for Graduates is a one-year qualification open to graduates. Unlike a postgraduate diploma, which involves 400-level papers, the Diploma for Graduates typically involves undergraduate papers (that is, papers at 100-, 200- and 300-level). The Diploma for Graduates comes in two forms. In its flexible form, the diploma is intended for graduates who wish to broaden their undergraduate background, and any combination of subjects that constitutes an academically feasible and justifiable programme of study is permitted, provided that the chosen combination includes enough points at 300-level. The endorsed form of the Diploma for Graduates identifies a subject of specialisation, and requires that papers be concentrated in that subject. Since the endorsed diploma for graduates is approximately equivalent to a new major subject, it is often used as a bridge to postgraduate study.

### Entrance requirements

Candidates with a bachelor's degree or extensive training and experience in an appropriate field may apply.

# Scholarships

(for masters' and doctoral students)

## University of Otago Scholarships

The University offers a number of generous masters' awards and doctoral scholarships (for PhD and other doctoral-level study).

Scholarship or Award	Tuition Fees	Stipend (\$NZ)	Duration (months)
Coursework Master's Scholarship	Partial (\$10,000)	-	-
International Master's Scholarship (Master's thesis)	Yes	13,000	12
Doctoral Scholarship	Yes	25,000	36
Pacific Island Doctoral Scholarship (Pacific Island students)	Yes	25,000	36
Dr Sulaiman Daud 125th Jubilee Postgraduate Scholarship (Doctoral, Malaysian students)	Yes	25,000*	36
Special Health Research Scholarship (Doctoral)	Yes	25,000	36

\* plus additional sundry costs (e.g. partial insurance costs, establishment allowance)

The University of Otago scholarships are awarded on the basis of academic merit, research ability (where applicable) and suitability within the department. No interview is required. Students already receiving a full scholarship covering tuition fees and living costs are not usually eligible.

*OTAGO OFFERS OVER 200  
SCHOLARSHIPS PER YEAR FOR WHICH  
INTERNATIONAL STUDENTS CAN APPLY.*

## Application Procedure – University of Otago Masters' and Doctoral Scholarships

Applicants for University of Otago masters' and doctoral scholarships normally apply at the same time that they apply for international student admission to their chosen degree; applications are considered on a continuous basis throughout the year. Scholarship application forms can be downloaded from:

---

[otago.ac.nz/applynow](https://otago.ac.nz/applynow)

Applicants must also apply online for admission, see:

---

[otago.ac.nz/international/postgraduate](https://otago.ac.nz/international/postgraduate)

For further information contact the Doctoral and Scholarships Office at: [scholarships@otago.ac.nz](mailto:scholarships@otago.ac.nz)

## New Zealand International Doctoral Research Scholarships (NZIDRS)

These scholarships, funded by the New Zealand Government through Education New Zealand, are open to all students who do not hold New Zealand or Australian residence and are awarded on the basis of academic excellence. Applications close on 15 July each year.

For further information, please see:

---

[enz.govt.nz/how-we-work/scholarships](https://enz.govt.nz/how-we-work/scholarships)

## New Zealand Aid Programme Scholarships

The New Zealand Government, through its New Zealand Aid Programme, provides scholarships to citizens of some developing countries to undertake tertiary level study in New Zealand. The purpose of the New Zealand Aid Programme's scholarship schemes is to enhance the skills, training and knowledge of selected individuals and thereby build capacity to contribute to the sustainable development of key areas in their home country, including the reduction of poverty.

For further information about these scholarships, please see:

---

[aid.govt.nz/schols](https://aid.govt.nz/schols)

## Student Loans for US Citizens, US Nationals, Permanent Residents, or eligible non-citizens

The University is accredited to participate in the US Federal Student Aid Loan Program and eligible US students are able to apply for William D. Ford Federal Direct Loans to fund their study. The University of Otago's US Department of Education School Code is G21568. Students intending to apply for loans should first contact the US Financial Aid section of the International Division: [us.financialaid@otago.ac.nz](mailto:us.financialaid@otago.ac.nz)

Further information on individual student eligibility is available at:

---

[otago.ac.nz/international/usfinancialaid/index.html](https://otago.ac.nz/international/usfinancialaid/index.html)

Further information about all University of Otago scholarships is available at:

---

[otago.ac.nz/study/scholarships](https://otago.ac.nz/study/scholarships)

# Business

[otago.ac.nz/business](http://otago.ac.nz/business)

The Otago Business School is one of fewer than 100 business schools worldwide to hold dual EQUIS (European Quality Improvement System) and US-based AACSB (Association to Advance Collegiate Schools of Business) accreditation status. This ensures our qualifications are globally portable and truly recognised around the world, and gives students confidence in choosing to study at Otago.

The School's strengths lie in teaching and research which are supported by a comprehensive range of subject disciplines including Accountancy, Business Administration, Economics, Entrepreneurship, Finance, Hospitality, Information Science, International Business, Management, Marketing and Tourism – all contributing to the School's national and international reputation.

## Undergraduate Studies

Qualifications at both undergraduate and postgraduate levels are available. The undergraduate Bachelor of Commerce (BCom) is a three-year degree, which incorporates a “core” set of compulsory papers that provide a general overview to all disciplines available within the School. The “core” complements the major area(s) of study, making students more employable due to their increased understanding of modern business practices.

## Postgraduate Options

Postgraduate study offers a number of options, ranging from diplomas through to coursework or research masters' and PhDs. Postgraduate qualifications are flexible and offer coursework or research-based study, or a mixture of both. Students completing masters' or PhD degrees may apply for University scholarships.

Students can tailor their individual programme to suit their educational or professional needs. The flexibility of the postgraduate qualifications ensures that students who come from diverse backgrounds can still attain the qualification they need.

## Otago MBA

The School is also proud to offer the Otago MBA which has established a worldwide reputation. The programme boasts an International Exchange option with top-ranked MBA programme partners around the world, as well as the opportunity to specialise in a range of elective papers from across the Business School, or online electives.

Students undertaking the Otago MBA receive the added support of a business mentor from the Dunedin business community for the duration of their study. Students meet regularly with mentors to guarantee a robust Kiwi experience as well as to integrate their learning and gain insight into business practice in New Zealand.

## OTAGO BUSINESS SCHOOL QUALIFICATIONS ARE GLOBALLY PORTABLE AND RECOGNISED AROUND THE WORLD.

### Why Choose Business at Otago?

The University of Otago Business School is an Asia-Pacific leader in business education and research, and the School hosts its own Bloomberg Financial terminal – a resource second to none for up-to-the-minute financial data from around the globe.

The Visiting Executive Programme offers students regular opportunities to attend seminars presented by leading executives from organisations such as the Reserve Bank of New Zealand, and New Zealand Trade and Enterprise. Individual departments also frequently host seminars on a wide range of topics – postgraduate students are encouraged to attend, participate and to develop interdisciplinary networks.

### Student Exchange

Collegiality with international business schools is promoted through the student exchange programme and international case study competitions. Students can choose from an extensive list of more than 50 international business schools for their exchange experience.

### Entrepreneurially Minded?

Students with entrepreneurial flair are encouraged to enter the Audacious Student Business Challenge, which aims to help launch new businesses. Students have the opportunity to win cash and prizes. For more information visit [audacious.co.nz](http://audacious.co.nz). All you need to enter is an idea!

### World-Class Business Education

The School values its international connections and is a member of several prestigious international education networks, including the Partnership in International Management (PIM), the Pacific Asian Consortium for International Business Education and Research (PACIBER), the European Foundation for Management Development (EFMD), the Association to Advance Collegiate Schools of Business (AACSB) and is a founding member of the Association of Asia Pacific Business Schools (AAPBS).

## Ali Murdan

### Indonesia Master of Tourism

Indonesian student Ali Murdan says he considered “three Cs” when he chose Otago for his Master of Tourism studies.

“The first is ‘country’. New Zealand is beautiful and has an advanced reputation in nature-based tourism,” he says.

“Second is ‘city’. Dunedin is a great small city and famous for its student life.

“And third is ‘campus’. My tourism department has international calibre lecturers and is highly ranked.”

His course of study is three semesters, the final semester of which is a research project. Ali, who is here on a New Zealand ASEAN scholarship, plans to focus his research on national park management, in particular the

economic valuation of eco-tourism. This ties in with his job in Indonesia where he is a government officer in the Ministry of Tourism and Creative Economy.

“There are similarities here with Indonesia – there are many natural resources to be used as tourist destinations. After studying I hope I can utilise my knowledge and contribute significantly to the development of tourism in my country.”

Otago has a relatively small number of Indonesian students but they’re very close – “we have gatherings, perform in cultural events and sometimes go on trips.”

It was initially challenging speaking English but the University helped, he says.

“I didn’t use English very often in my former jobs so when I arrived I did a one-month prep course to improve my English for academic purposes.”

Ali’s wife and two daughters also live here, and when he isn’t studying they spend as much time as possible visiting libraries, museums and gardens. Ali especially enjoys the 10-minute walk from his home to university through the Botanic Gardens and that it only takes him five minutes to get from campus to the nearest mosque.

“I don’t have to worry about whether I can pray. Here I can study and still manage my prayer time.”

*THE UNIVERSITY OF OTAGO  
HAS AN UNPARALLELED  
REPUTATION IN THE FIELD  
OF HEALTH SCIENCES.*

# Health Sciences

[otago.ac.nz/healthsciences](http://otago.ac.nz/healthsciences)

The University of Otago is New Zealand's longest-established Health Sciences' research and teaching institution. It is the only New Zealand university to offer a degree in Dentistry, and one of only two to offer degrees in Pharmacy, Medicine and Physiotherapy. Otago also offers the benefits of a national presence, with teaching hubs in numerous locations throughout New Zealand, and Schools of Medicine and Health Sciences located in Christchurch and Wellington, in addition to the Dunedin-based schools.

The Division of Health Sciences provides research-based undergraduate, postgraduate, professional and academic programmes of an international standard in the health and related biomedical sciences. In a typical year, there are more than 4,000 undergraduate students and 1,000 postgraduate students studying a wide variety of health-related programmes.

The strength of Health Sciences at Otago is reflected in the international reputation of the division's research teams, the high standard of teaching and research facilities, and the wide range of programmes available. Otago graduates are employed around the world and many have risen to leadership positions at overseas universities and research institutions.

## Undergraduate Study

The Division of Health Sciences offers a range of professional degrees:

- Medicine (MB ChB, six years)
- Dental Surgery (BDS, five years)
- Medical Laboratory Science (BMLSc, four years)
- Pharmacy (BPharm, four years)
- Physiotherapy (BPhy, four years).

A limited number of places may be available for international students in the second year of each of the MB ChB, BDS, BMLSc, BPharm and BPhy degrees.

Prior to commencing study at the University of Otago, applicants are strongly advised to contact the International Division for guidance regarding entry opportunities to the professional programmes.

The Division also offers:

- Bachelor of Dental Technology (BDentTech, three years)
- Bachelor of Oral Health (BOH, three years)
- Bachelor of Biomedical Sciences (BBIomedSc, three years).

In addition, Otago's strength in biomedical sciences offers numerous opportunities for study in the biological sciences. Specific programme options include the Bachelor of Biomedical Sciences (BBiomedSc, three years) and Bachelor of Science (BSc, three years) in one of the biological majors, including Anatomy, Biochemistry, Genetics, Microbiology and Immunology, Neuroscience, Pharmacology and Toxicology, and Physiology.

## Health Sciences First Year

The Health Sciences First Year programme is the first year of study for students seeking entry into any one of the following degrees: MB ChB, BDS, BMLSc, BPharm and BPhy\*.

Entry into the second year of each of these degrees is competitive and selection is based upon the grades achieved in the Health Sciences First Year programme and, in some cases, a current UMAT result and an oral assessment.

It is important that students are familiar with the regulations for these programmes if wishing to compete for a place in one or more of them. Regulations for these programmes can be found at [otago.ac.nz/healthsciences](http://otago.ac.nz/healthsciences)

It also provides suitable academic preparation for students wishing, as an alternative, to take a Bachelor of Biomedical Sciences or a Bachelor of Science in one of the biological majors.

The Health Sciences First Year programme comprises seven compulsory papers:

BIOC 192	Foundations of Biochemistry
CELS 191	Cell and Molecular Biology
CHEM 191	The Chemical Basis of Biology and Human Health
HEAL 192	Foundations of Epidemiology
HUBS 191	Human Body Systems I
HUBS 192	Human Body Systems II
PHSI 191	Biological Physics

*\*Health Sciences First Year should be your first year of tertiary study.*

## Postgraduate Study

Postgraduate students from a range of backgrounds choose to study Health Sciences at Otago.

Programmes are available in Dentistry, Medicine, Medical Sciences, Pharmacy, Physiotherapy, as well as in a wide range of health-related disciplines such as Bioethics, Occupational Health, Public Health, Mental Health, Sports Medicine and Health Informatics.

The range of Health Sciences' postgraduate programmes available at the University enables the sharing of knowledge, information, staff and resources, and the cross-fertilisation of ideas and initiatives. Otago's Health Sciences' researchers are extremely successful in gaining research funding from external sources, many are international leaders in their fields and some hold executive posts in international professional bodies.

The success of the Division of Health Sciences' collaboration can be illustrated by the number of multidisciplinary research activities hosted by the division.

## Ashley Neoh

Malaysia  
Bachelor of Pharmacy

Doing the Health Sciences First Year course (HSFY) at Otago last year was an “eye-opening experience” for pharmacy student Ashley Neoh.

“HSFY is basically a year where we are taught a little bit of everything to give us an idea about different professions,” says Ashley.

“Even though it was pretty daunting at times, as the workload started to pile up I found that I was always able to ask the tutors to clarify things, be it during lab time or just dropping by the office.”

Ashley, who comes from Penang, Malaysia, also found a strong support network at Carrington College where she was “spoilt with great food and company”.

“Coming from Malaysia, I felt a little out of place when I first arrived but I had a pleasant surprise when my Residential Assistant greeted me in Malay language. Also, I was housed with other HSFY students, which made it convenient for group discussions and weekly tutorials with the house tutor.”

The highlight of her first year was appearing in a student video for the university, which was a thrilling experience, she says.

“The best part of it was that I was able to share what studying and living in Dunedin was like, especially for international students.”

This year, Ashley is doing second-year pharmacy and is flatting with three friends. She is keeping busy as a School of Pharmacy ambassador and being part of the Otago Leadership Award Programme.

Ashley is also involved in the International Mentor Programme (IMP).

“In IMP, I was assigned to someone who is studying HSFY this year so I was able to advise them.”

After she graduates, Ashley would like to join the School of Pharmacy research programme, which could lead to a master's or PhD.

“In the long run, I would definitely hope to look for an opportunity to establish myself as a pharmacist here in New Zealand,” she says.

# Humanities

[otago.ac.nz/humanities](http://otago.ac.nz/humanities)

Humanities subjects at Otago cover two main areas of learning – the arts and the social sciences. The Humanities comprise those subjects that investigate the human world, how humans relate to their environment and, essentially, what it is to be human.

Humanities subjects explore areas as varied as:

- Human culture, history, beliefs and value systems
- How people communicate with each other, express themselves and represent their experience
- The analysis of human behaviour
- The nature of, and relationship between, social and environmental systems
- The way that environmental, social, economic and political processes shape our lives.

There are also departments which provide specialist professional education for lawyers, planners, ministers of religion, social workers and teachers.

## Undergraduate Studies

In the Bachelor of Arts there are at least 50 Humanities subjects to choose from, ranging from Anthropology to Writing. Whatever subjects students choose, Humanities graduates develop essential lifelong learning skills such as critical thinking, flexibility and competence with language. Together with the knowledge of the human and natural world that the arts and social sciences impart, these skills prepare Humanities graduates for employment in a multitude of areas.

*\*Confirmed by the results of the Performance-Based Research Fund appraisal conducted in 2012.*

## Postgraduate Studies

Postgraduate study programmes are a major focus of the Humanities Division at the University of Otago. The division has a significant number of the top research departments in arts subjects in New Zealand universities.\* In a typical year, the Division of Humanities has more than 500 students enrolled for higher degrees by thesis (mainly PhD and Master of Arts) and a growing number of students studying towards specialised masters' degrees by coursework. All academic staff are active researchers and postgraduate students are matched with supervisors who are expert in their field.

Postgraduate students are also able to benefit from close collaborative links with an extensive and diverse range of universities and institutes from around the world, with an opportunity to study abroad under expert research supervision at top international research universities and institutes.

## Research Strengths

The Division has a number of formally recognised research centres, themes, clusters and networks in areas of research strength. In addition, distinguished scholars in a wide range of disciplines are able to provide supervision in the areas of their current research. Full details of staff expertise can be found at:

[otago.ac.nz/humanities/research/research\\_expertise.html](http://otago.ac.nz/humanities/research/research_expertise.html)

## Unique Resources

For students intending to work on topics relating to New Zealand and the Pacific, the Division of Humanities has archaeological and fieldwork sites in the South Island of New Zealand, the Pacific, South-East Asia and Papua New Guinea.

The Hocken Collections is one of the foremost historical research libraries in New Zealand, housing archives, manuscripts, books, pamphlets, newspapers, maps, periodicals, paintings, drawings, photographs, music and film.

Ample research opportunities are also provided by significant repositories of early books in the University's Central Library, including the de Beer Collection, the Brasch Collection and the Shoultz Collection:

[library.otago.ac.nz/SpecialCollections/](http://library.otago.ac.nz/SpecialCollections/)

Unique opportunities are available at Otago for students in contemporary music and studio production. Collaboration with the music industry to develop the New Zealand Music Industry Centre (NZMiC) has provided a world-class music console (mixing desk) at the Music Department's Albany Street recording studio.

---

## THE DIVISION OF HUMANITIES ENJOYS CLOSE COLLABORATIVE LINKS WITH LEADING RESEARCH UNIVERSITIES AND INSTITUTES AROUND THE WORLD.

### Graduate Destinations

Graduates with masters' and PhD degrees enjoy a wide range of employment destinations, irrespective of the particular subject in which they complete their research. Recent graduates have found employment as policy analysts, project managers, researchers, archivists, publicists, university lecturers, and in editorial roles across a broad spectrum of institutions and businesses – especially in government ministries and agencies.

### Division of Humanities Research

The Division has strengths in research across the range of disciplines in Humanities. Research areas range from New Zealand and Pacific Archaeology to the Philosophy of Science, from Educational Leadership to Glaciers and Climate Change.

### Division of Humanities Departments

Each Humanities department listed below has information on its website of the range of research currently being undertaken:

Anthropology and Archaeology

Classics

College of Education

English and Linguistics

Geography

History and Art History

Visual Culture

Languages and Cultures

Asian Studies

Chinese

European Studies

French

German

Japanese

Spanish

Faculty of Law

Centre for Law and Policy in Emerging Technologies

Legal Issues Centre

Media, Film and Communication

Music and Theatre Studies

Performing Arts

National Centre for Peace and Conflict Studies

Philosophy

Politics

Sociology, Gender and Social Work

Te Tumu, School of Māori, Pacific and Indigenous Studies

Theology and Religion

### University of Otago Research Centres based in the Division of Humanities

- Centre for Research on Colonial Culture
- Centre for Sustainability: Agriculture, Food, Energy, Environment (CSAFE)
- Centre for Society, Governance and Science

### University of Otago Research Themes based in the Division of Humanities

- Asian Migrations
- Comparative and Cross-Cultural Studies
- Early Modern Thought

### Humanities Research Clusters and Networks

- Asia-New Zealand Research
- Children and Young People as Social Actors
- Classical Culture and Society
- Cultures, Histories and Identities in Film, Media, and Literature
- New Developments in Analytic Philosophy
- Pacific Studies
- Postcolonial Studies

### Other Humanities Research Centres

- Centre for the Book
- Centre for Irish and Scottish Studies
- Centre for Law and Policy in Emerging Technologies
- Legal Issues Centre
- Children's Issues Centre
- Centre for Theology and Public Issues
- National Centre for Peace and Conflict Studies

*Specific staff research expertise can be found on the website:*

## Sondre Lindahl

Norway  
PhD, Peace and Conflict

Norwegian PhD candidate Sondre Lindahl was happy to move halfway round the world if it meant he could have National Centre for Peace and Conflict Studies Deputy Director Richard Jackson as his supervisor again.

Sondre was first supervised by Professor Jackson for his master's degree at Aberystwyth University in Wales in 2012.

"When I finished my master's I understood that in order to do the research I wanted to do in the way I envisaged it, I needed to do it with him," he says.

Sondre's PhD thesis asks if there is a distinctive 'Norwegian approach' to counter-terrorism, and if so, what can be gained from exploring it?

Sondre is also assisting Professor Jackson in editing the *Routledge Handbook of Critical Terrorism Studies* and will contribute a chapter offering a critical evaluation of counterterrorism.

There are lots of advantages to studying at Otago, Sondre says, including domestic fees for foreign PhD students and easy access to a range of activities.

"Dunedin is perfect for me. I play golf up at Balmacewen, which offers a student discount. I also play social soccer at Unipol gymnasium two or three times a week and do salsa dancing. I had considered studying in London but in bigger places you have to factor in the money and the travel time."

Sondre lives only five minutes from campus at Abbey College, which provides accommodation exclusively for postgraduate students.

"It's absolutely brilliant," he says. "I can socialise whenever I like and I built up a network of friends really fast."

"My attitude is to engage with everything that's here. I have three years to explore and exhaust what New Zealand has to offer and I plan to maximise my stay."

# Sciences

[sciences.otago.ac.nz](http://sciences.otago.ac.nz)

The excellence and influence of a university's research is what lifts it above the ordinary. Research and science are inseparable – science marches forward because of research and, as it does, we understand more of the intricate physical and biological subtleties of our existence.

In the Division of Sciences there are many proven research leaders. These scientists have such a passion for their work, creating an environment of excellence that attracts and inspires students. That research excellence leads to success in obtaining major contestable and commercial funding as well as developing international partnerships.

## Programmes

The Division's programmes span the fundamental sciences, applied science, and multidisciplinary areas such as ecological and environmental sciences, genetics, forensics and neuroscience. All of these programmes are enhanced by the excellent research being carried out.

In relation to postgraduate study Otago is proud of its first-rate teaching and learning, supervision and encouragement of students' research. We have superb laboratories and facilities for in situ fieldwork, including research stations and vessels, which meet – and often exceed – the standards necessary to remain at the cutting edge of knowledge.

---

---

## INTERNATIONALLY-ACCLAIMED RESEARCH ENHANCES OTAGO'S REPUTATION AS A PRE-EMINENT SCIENCE RESEARCH HUB AND NURTURES STUDY.

---

### Interdisciplinary Studies

As well as single-discipline work, there are many opportunities for interdisciplinary study. These include areas such as active earth processes, ecology, lasers and applications, memory, polar environments, photonics and ultra-cold atoms, energy, ocean and climate change, and obesity, and there are strong connections to research in other areas of the University. Applied research centres add strength and diversity to the range of study options within the division.

### Why Choose Science at Otago?

The flexibility and diversity of undergraduate and postgraduate qualifications on offer in the Division of Sciences leads to an abundance of job options. These include all types of education, technical and research positions in the private and public sectors, executive management, and entrepreneurial careers in business. The transferrable skills learned in sciences – communication, teamwork, initiative, problem solving, persistence and curiosity – are sought-after worldwide. Our graduates hold senior positions in all spheres of life and work.

### Research Strengths

Alpine Ecosystems  
Atmospheric Physics  
Behavioural Processes  
Biopsychology  
Chemistry in Biological Systems  
Clothing and Textile Sciences  
Coastal Marine Primary Production  
Cold Atom Physics, including Bose-Einstein Condensation  
Computer Graphics and Vision  
Dynamics and the New Zealand Plate Boundary  
Energy Management  
Environmental and Ecological Statistics  
Environmental Chemistry  
Environmental Physiology  
Freshwater Ecology  
Functional Molecular Materials  
Human Perception, Decision-Making and Information Processing  
Marine Mammal Conservation  
Mathematics Education  
Mathematical Modelling  
Micronutrients in Human Nutrition and Disease  
Neuromotor Performance in Health and Disease  
Plant Community Structure  
Plant Ecophysiology - Physiology of Plants in Relation to their Environment  
Plant Virology  
Polar Marine Physics and Modelling  
Polymer Chemistry

Psychopharmacology  
Trace Elements in Human Health and Disease  
Sensory Science  
Social Perception and Judgment  
Software Engineering  
Supramolecular Chemistry  
Telecommunications  
The Gold Cycle and Crustal Processes  
Theory of Computing

## Ellen Miller

United States  
MSc, Marine Science

Ellen Miller enjoyed being a visiting international student so much that she returned to Otago to do a master's in Marine Science.

Ellen grew up in Indiana and attended Butler University, where she had an opportunity to study overseas for a semester. Her decision to come to Dunedin was easy because of Otago's reputation for good science, and New Zealand's tramping and outdoors lifestyle.

"Student life at Otago was a lot of fun. The international staff were great at getting us out and exposing us to the kiwi experience."

Ellen's study was rewarding too, especially when she discovered a

passion for Marine Science, taking classes and working as a volunteer researcher in the department.

She returned to Butler to complete a Liberal Arts and Sciences degree majoring in Biology, but Otago lured her back as a full-time postgraduate student.

"I'm studying the effects of land-based fertiliser run-off on coral bleaching events around Fiji, to determine whether or not corals exposed to nutrient-loaded seawater bleach more readily than those in pristine, nutrient-poor water.

"I'm really interested in human impact on marine systems, largely because there is a lot of

management potential in these areas, and my goal is to do marine conservation work.

"My supervisor was wanting to branch out into coral research, collaborating with the University of the South Pacific in Fiji. The project grew from there and, of course, I was keen to take a trip to the tropics!"

Ellen's not sure what the future holds after her master's, but one thing is certain.

"When I first came to New Zealand I was homesick for the US, but now New Zealand feels like home and if I ever leave I'm going to miss it."

# Pathways to Study

## University of Otago Language Centre (UOLC)

UOLC offers English language tuition for students and provides the ideal pathway to university study.

### Programmes:

- General English
- English for Academic Purposes
- IELTS, TOEFL iBT
- English for International Communication with TOEIC
- Non-IELTS pathways to Foundation Year
- Non-IELTS pathways to undergraduate and postgraduate study through English for Otago
- English for Groups

The UOLC offers five levels of English tuition from elementary to advanced. Class sizes have an average of 12 students, with a maximum of 16 students. There are 23 hours of tuition each week.

## University of Otago Foundation Year (UOFY)

The UOFY prepares students for undergraduate degrees at Otago and provides a university entry qualification for students seeking admission to undergraduate degrees at all other New Zealand universities. Successful students are guaranteed a place in all University of Otago first-year courses.

### Academic streams:

- Arts
- Applied Science
- Business
- Health Sciences
- Life Science

Students are taught in lecture theatres and laboratories on campus ensuring they become confident and familiar with the University environment.

Foundation Year has three intakes per year in February, June and October. Bridging courses are offered before each intake.

## Student Services

Students in the UOLC and the UOFY are offered full student support services, a comprehensive orientation and weekly activities.

A student ID card gives access to University of Otago resources including libraries, 24-hour computer suites, student health, clubs and societies, cafes, and provides discounts on shopping, entertainment and travel.

A homestay placement service arranges quality homestay accommodation for all students.

Further information, including tuition, homestay and other costs, can be viewed at:

# Services and Facilities

## Career Development Centre

The Career Development Centre provides expertise, information, seminars and advice on career opportunities, graduate recruitment and job-seeking strategies.

[otago.ac.nz/careers](http://otago.ac.nz/careers)

## Childcare

The University's Childcare Association manages five centres on campus, providing full- and part-time care for children from birth to five years old. Enquiries and bookings for placement should be made well in advance of arrival as places are limited.

[otago.ac.nz/childcare](http://otago.ac.nz/childcare)

## Disability Information and Support (DI&S)

DI&S provides learning support, advice, advocacy and information to students with permanent, recurring or temporary impairments.

DI&S offers support to international students. However, as with any other student enrolling at the University, it is important that you check in advance to ensure that the University is able to meet your specific requirements. You need to be sure that the University can provide you with the type and level of support you are used to. As there may be costs associated with some support services, it is important that you are aware of these before you commit to studying at Otago. Please contact us as early as possible if you are planning to study at the University.

[otago.ac.nz/disabilities](http://otago.ac.nz/disabilities)

## Information Technology Services (ITS)

ITS staff provide support for the computers and internet-based teaching and communication programmes used throughout the University. Computer areas are located around the Dunedin campus and several are open 24 hours a day, seven days a week. Help and training in the use of the student IT resources is provided by the Student IT Services section of ITS.

[otago.ac.nz/studentIT](http://otago.ac.nz/studentIT)

## International Division

The International Division is a focal point for international students at Otago. The Division provides information, support and advice to future and current international students and to students wishing to study overseas on exchange programmes. It runs on-campus orientation programmes for new international students, operates an international peer support network, and offers a student visa renewal service and assistance with insurance, and US Financial Aid.

All enquiries from prospective international students about application and admission should be directed to the International Division.

[otago.ac.nz/international](http://otago.ac.nz/international)

## International Student Clubs

Otago has many clubs and associations representing its international students. Among them are the Malaysian Students' Association, Fiji Club, Indian Cultural Society and the Otago Muslim Students' Association, as well as clubs involving students from Hong Kong, China, Indonesia, Samoa, Tonga and many other countries.

## Libraries

The University Library offers excellent facilities for study. The collection includes extensive print and electronic resources with full-text electronic journals and international databases accessible via the library website.

Collections are held in a number of facilities across campus, including the Central Library (Commerce and Humanities), Robertson Library (Education), Law, Medical and Dental, Science Libraries and Hocken Collections (New Zealand and Pacific heritage material). The Central Library is located in the University's multi-award winning Information Services Building (ISB).

The Hocken is one of New Zealand's foremost research libraries and contains many rare historical publications of national and international significance, as well as manuscripts, pictures and photographs.

[otago.ac.nz/library](http://otago.ac.nz/library)

## Recreation at Otago

The Unipol Recreation Centre and OUSA Recreation Centre provide a comprehensive programme to ensure students maintain a healthy, balanced and fun lifestyle while studying at Otago. There are many recreational opportunities on and off campus including courses, trips, group fitness classes, social sport, sports clubs and societies – there really is something for everyone!

Entry into the new Unipol Recreation Centre at the University Plaza is free with a current student ID card. This fantastic facility includes weight training and cardio rooms and team sports areas where students and their friends can participate in casual sports such as basketball, table tennis and more. A range of equipment can also be hired for leisure activities beyond the Centre.

The Otago University Students' Association (OUSA) operates a Recreation Centre. Most facilities are free or inexpensive and, in addition to being a base for the clubs and societies on campus and a venue for many of the recreation courses on offer, the Centre also provides a sauna, dance and exercise spaces, a commercial kitchen, pianos and meeting/study rooms.

If you're interested in participating in sports at a local or national level there are more than 40 clubs catering for all abilities, from beginner to elite. And with more than 75 societies, just about every interest is covered – from debating, politics and religion, to fire-eating and Morris dancing!

[otago.ac.nz/recreation](http://otago.ac.nz/recreation) or  
[unipol.co.nz](http://unipol.co.nz)  
[ousa.org.nz](http://ousa.org.nz) (click 'Recreation')

## Students' Association

The Otago University Students' Association (OUSA) is not only the place that runs events like Orientation, Art Week and the International Food Festival, it's also the place you can go for any kind of help at Otago. If you've lost your wallet, need some help with budgeting or require advocacy and support, OUSA is the place to go. OUSA Recreation Centre is home to over 100 clubs and a great way to meet new people; from the Indian Students' Association to the United Nations Society, we've got them all. OUSA, we're here to provide the ultimate student experience.

[ousa.org.nz](http://ousa.org.nz)

## International Students' Representative

Students elect an International Students' Representative each year. Their role is to act as a link between international students, the University and OUSA.

## Student Health Services

Student Health Services is situated on campus and provides medical, nursing, counselling and psychiatric advice and treatment for all international students enrolled at the University of Otago.

[otago.ac.nz/studenthealth](http://otago.ac.nz/studenthealth)

## The Student Learning Centre

The Student Learning Centre offers a free service for enrolled undergraduate and postgraduate students. Assistance includes:

- Postgraduate and undergraduate workshops
- Individual consultations with learning advisers
- Postgraduate and undergraduate peer learning/support programmes including PASS (peer assisted study sessions), conference support groups, and peer writing support
- A Student Leadership Programme offering second year students (or above) opportunities to develop leadership skills through a range of volunteer activities
- A Peer Support Programme, which includes opportunities for students whose second language is English to join a group to practise their "Kiwi" conversational English with native English speakers, and mentoring for first-year students
- Online study resources.

[otago.ac.nz/slc](http://otago.ac.nz/slc)

## University Information Centre

The University Information Centre, located in the Information Services Building, provides a starting point for all enquiries about changing course, graduation and examinations.

[otago.ac.nz/services/uic.html](http://otago.ac.nz/services/uic.html)

## Graduate Research School

The Graduate Research School has responsibility for leadership, oversight and policy advice in relation to doctoral degrees (including PhD), research masters' degrees and University scholarships and prizes, as well as responsibility for providing appropriate support and guidance to graduate research candidates and their supervisors. The Doctoral and Scholarships Office, within the Graduate Research School, manages and administers the doctoral and scholarships programme.

[otago.ac.nz/research/graduate](http://otago.ac.nz/research/graduate)

## Postgraduate Supervisors

The University recognises the importance of the supervisor-student relationship. Supervisors provide strong support and mentorship, and our overall ratio of postgraduate students to academic leaders is better than 3:1, the highest of any New Zealand university. They induct and support graduate research students into the research culture, backed by strong departmental facilities. Regular workshops are held for students and supervisors.

# Accommodation

There is a wide range of accommodation options available for international students. When choosing, it is important to consider the kind of living environment you prefer; for example, do you prefer an independent lifestyle or living in a catered college?

## UNDERGRADUATE OPTIONS

### Residential Colleges

Many students in their first year of university study choose to live in one of the University's undergraduate residential colleges:

Aquinas College  
Arana College  
Carrington College  
City College  
Cumberland College  
Cumberland Court  
Hayward College  
Knox College  
St Margaret's College  
Salmond College  
Selwyn College  
Studholme College  
Te Rangi Hiroa College  
Toroa College  
University College

Otago is proud of the first-class accommodation offered by its residential colleges. International students who are accepted for a college can also look forward to being active in the social, cultural and recreation programmes provided. All colleges are within walking distance of the main campus.

To apply for college accommodation for the February intake, you need to submit an application for accommodation in a residential college by 30 September to be considered in the first round of offers. Applications after this date will be placed on a waiting list and considered as places become available. For the second semester, it is preferred that applications are received before 1 June. Places are limited and we recommend that you apply to the Student Accommodation Centre as soon as you are able.

International students under the age of 18 when they start studying at the University of Otago can only apply to live in Aquinas College or homestay. These options are in accordance with the Code of Practice for the Pastoral Care of International Students.

## POSTGRADUATE OPTIONS

### Abbey College

Abbey College is New Zealand's only fully-catered residential college for postgraduate students and is unrivalled in the country. A former hotel complex, it is located within a few minutes' walk of all University facilities, the Dunedin Botanic Garden and the central city. The College comprises 83 rooms, many with ensuite bathrooms. There are also options for couples and students with disabilities.

The complex is spacious, safe and secure, with its operation overseen by an on-site Head of College. The College has its own dining room with full catering to residents. There are large common rooms and a reading room, a pleasant garden (Abbey Common), a spa pool and sauna. Car parking is also available.

Abbey College provides a supportive and friendly academic community environment allowing residents to focus on their postgraduate studies. Applications for Abbey College will be accepted throughout the year.

The following Colleges accommodate both undergraduate and postgraduate students:

Arana College  
(catered and self-catering options)

City College (catered only)

Knox College (catered only)

Salmond College (catered only)

Selwyn College  
(catered and self-catering options)

Please note: College accommodation is not suitable for families.

## UNDERGRADUATE AND POSTGRADUATE OPTIONS

### University-managed Flats and Houses

Students who would like more independence can apply for a room in a University-managed flat. This is also the best option for single semester students. Most of these flats have a New Zealand “Kiwi Host” student. There are also a small number of flats available for postgraduate students with partners and/or families.

The flats are fully furnished and within easy walking distance of campus. Electricity, telephone and food costs are shared by the residents. Single semester residential contracts are for 24 weeks. University wireless internet access is available in each flat.

To apply for accommodation in “Uni Flats” you must submit an online application. Whilst there is no close-off date, to be considered in the first round of placements your application should be received by:

- 1 December for the first semester; and
- 10 May for the second semester.

[otago.ac.nz/uniflats](http://otago.ac.nz/uniflats)

## Homestay Accommodation

Homestay offers an ideal opportunity for students to improve their English and learn more about the New Zealand way of life – a Kiwi experience. Students may wish to join in with family life or be as independent as they wish. Many lasting friendships have been made between students and their hosts. You will have your own bedroom with desk, lamp, linen, heater and bedroom furniture. You will be provided with breakfast and evening meals from Monday to Friday and three meals per day in the weekends. Homestay accommodation can be arranged by contacting:

University of Otago Language Centre and  
Foundation Year  
Tel 64 3 479 5710  
Email [uolcfy.accommodation@otago.ac.nz](mailto:uolcfy.accommodation@otago.ac.nz)

## Temporary Accommodation

If you plan to arrive before your permanent accommodation is available, it is important that you organise temporary accommodation in advance of arrival.

The Student Accommodation Centre provides a list of options including backpackers, bed and breakfasts, and motels that are close to the University.

## Other Options

If you intend to find your own long-term accommodation, the Student Accommodation Centre will assist you to find rental accommodation that will best suit your needs. Dunedin has a wide range of rental accommodation from historic houses to multi-unit, purpose-built complexes. It is recommended that you do not sign any contracts until you arrive in Dunedin. It will be important to book temporary accommodation for when you first arrive.

## Student Accommodation Centre Services

- List of flats and houses, vacant rooms in flats
- List of temporary accommodation
- Sample budgets for flat living
- Free maps of campus and Dunedin areas
- Checklists for flat finders
- Flating agreements
- Advice on your rights and responsibilities as a tenant
- Advice on standards and prices.

## The Application Process for University-managed Accommodation

Places in all University-managed accommodation require an application form to be completed. We recommend that this is completed online through the University website [otago.ac.nz](http://otago.ac.nz)

Postgraduate and single-semester students will be sent information about accommodation when they receive an Academic Offer of Place to study at the University of Otago. Admission to University-managed accommodation is usually restricted to applicants undertaking full-time study at the University of Otago.

If you are applying for a residential college and you are at school or left within the last two years, the “Confidential Reference Form” needs to be completed by your school and returned to the Student Accommodation Centre. This form is available on the Accommodation website. If you have not attended school in the last two years, please include with your application two character references from people who have supervised, or been senior to you in your current or most recent employment or studies.

For further information about accommodation please contact:

Student Accommodation Centre  
109 St David Street  
PO Box 56  
Dunedin 9054  
New Zealand  
Tel 64 3 479 5100  
Email [international.accommodation@otago.ac.nz](mailto:international.accommodation@otago.ac.nz)  
[otago.ac.nz/about/accommodation](http://otago.ac.nz/about/accommodation)

---

*NEW ZEALAND IS A LAND OF  
GREAT NATURAL BEAUTY,  
AND IT IS ALSO ONE OF THE  
WORLD'S MOST EXCITING  
ADVENTURE PLAYGROUNDS.*

# New Zealand Aotearoa

Comparable in physical size to Japan or Great Britain, New Zealand has a population of over four million people, making it one of the least crowded countries in the world. It is a land of great natural beauty, and it is also one of the world's most exciting adventure playgrounds.

New Zealand / Aotearoa was originally settled by Māori about 1,000 years ago, followed by waves of European immigration during the past two centuries. Today the country maintains a diverse and dynamic multicultural emphasis, enhanced by the growing number of people from the Pacific Islands and Asia who have also made New Zealand their home in recent years.

New Zealanders are friendly people who, in spite of (or perhaps because of) the country's geographical location and relatively small population, have earned a reputation for being both enterprising and innovative. They welcome international visitors and have a wide range of interests, from the arts to outdoor and sporting pursuits. New Zealanders love their sport and are good at it. Swimming, walking, biking, hiking, boating and fishing are all easily accessible as are many sporting codes such as rugby, soccer, tennis, netball, basketball, golf, squash and hockey. Those who are more adventurous enjoy white-water rafting, jet boating and bungee jumping, while in the winter months the country's many ski fields attract skiers and snowboarders from across New Zealand and afar.

The New Zealand economy is broadly-based. It is a major exporter of primary products with manufacturing, information technology, biological and medical research, education and tourism also playing vital economic roles. There is a growing focus on eco-tourism ventures, the wine industry, fashion design and a flourishing film industry that is gaining wide international recognition. The New Zealand dollar is a stable currency offering visitors a favourable exchange rate. All goods and services are subject to 15 per cent goods and services tax (included in the display price) and all major credit cards can be used.

Find out more about New Zealand at:

---

[newzealand.com](http://newzealand.com)

# Dunedin and Otago

*A COMMITMENT TO  
EDUCATION CONTINUES TO  
BE ONE OF DUNEDIN'S MOST  
IMPRESSIVE QUALITIES.*

The southernmost of New Zealand's main centres and the largest city in the province of Otago, Dunedin holds a special place in the hearts of many, and not just those who live here.

Although relatively small in size, it boasts many natural attractions as well as the facilities usually offered only by much larger cities.

Settled by the Scottish in 1848, Dunedin grew rapidly with the discovery of gold in the Otago hinterland and became, for a while, the commercial centre of New Zealand. During this time, many of New Zealand's most beautiful buildings were constructed and, with the establishment of the University of Otago in 1869, the foundations were laid for a strong tradition in education.

This commitment to education continues to be one of the city's most impressive qualities. The many early childhood education centres, primary and secondary schools enjoy an established reputation for excellence, and tertiary institutions attract students from throughout New Zealand and the world. Dunedin is New Zealand's only true student city and the relatively large student population contributes greatly to the city's colourful and dynamic atmosphere.

The central city streets are lined with restaurants, bars and cafes. Modern shopping malls trade alongside boutiques, galleries, and weekly craft and farmers' markets. The fashion industry is particularly vibrant with several of New Zealand's leading designers based in the city. The Dunedin Public Art Gallery, museums and libraries are among the finest in the country and professional theatre and the Dunedin Sinfonia enjoy a high profile.

Dunedin is also home to New Zealand's newest, largest and most versatile arena – the Forsyth Barr Stadium at University Plaza. An architectural icon for the city, the stadium hosts major sporting events, concerts, festivals and more.

Temperatures range from an average 14 – 24 degrees Celsius in the summer (December – February) and from 5 – 13 degrees Celsius in the winter (June – August), so outdoor activities can be enjoyed year-round. There are more than 150 walking tracks in the Dunedin environs, four championship golf courses and many other

sporting facilities which are all easily accessible. The long natural harbour is favoured for watersports and St Clair beach is considered one of New Zealand's best for surfing.

Dunedin is encircled by a "Town Belt" of native bush and trees and its coastline is home to colonies of yellow-eyed penguins, New Zealand fur seals and the world's only mainland breeding colony of the Royal albatross. Just a few hours' drive out of the city are some of New Zealand's most spectacular natural attractions – rugged mountains, deep fiords, clear blue lakes – including the internationally-known resort towns of Queenstown and Wanaka, famed for their ski fields and burgeoning wine industry.

Find out more about Dunedin at:

[DunedinNZ.com](http://DunedinNZ.com)

**TAIAROA HEAD** 1 hour  
The only Mainland Breeding Colony of Albatross in the World

**MT CARGILL** 10mins  
Great Mountain Biking and Walking Tracks

**OTAGO HARBOUR** 5mins  
Kayaking / Sailing / Kite Surfing / Wind Surfing

**UNIVERSITY OF OTAGO**  
New Zealand's First University

**FORSYTH BARR STADIUM**  
New Zealand's newest Arena

**THE OCTAGON** 3mins  
Town Centre / Cafes / Bars / Restaurants

**GOLF COURSE** 10mins  
One of 12 Golf Courses in Dunedin

**St CLAIR** 10mins  
Great Surf Spot / Cafes / Restaurants

**SKI FIELDS** 3hours  
Best Skiing in the Southern Hemisphere!

All distances are from the University area where most students reside. All distances are approximate and based on driving.

## Dunedin Events

Dunedin offers a full calendar of annual events and festivals including:

- Scottish Week
- Fringe and Heritage Festivals
- ID Dunedin Fashion Week
- Regent 24-hour Book Sale
- University Capping Show
- Dunedin Midwinter Carnival
- International Science Festival
- Cadbury Chocolate Carnival
- International Film Festival.

## Things to do

- Surf at St Clair Beach
- Fish for salmon in the Otago Harbour
- Visit New Zealand's only castle, Larnach Castle
- Go on a Speight's Brewery Heritage Tour
- Watch rugby at Forsyth Barr Stadium
- Enjoy gourmet foods from the Otago Farmers' Market
- Mountain-bike around the Dunedin hills
- Go skiing in Central Otago
- See yellow-eyed penguins and Royal albatross on the Otago Peninsula
- Buy cutting-edge locally-designed clothes
- Walk up the steepest street in the world ...

# Essential Information for International Students

## Code of Practice

The University of Otago has agreed to observe and be bound by the Code of Practice for the Pastoral Care of International Students published by the Ministry of Education. Copies of the code are available on request from the University of Otago or from the New Zealand Ministry of Education website at:

[minedu.govt.nz/](http://minedu.govt.nz/)

## Application and Costs

Information on application procedures and tuition fees can be found on the University's website at:

[otago.ac.nz/international](http://otago.ac.nz/international)

Application information is also available from page 59 of this prospectus.

PhD students enrolling at New Zealand universities are eligible to pay tuition fees at the New Zealand domestic level. International PhD students must be resident in New Zealand during their studies, apart from approved temporary absences overseas for the purposes of doctoral research, to be eligible for domestic status. In addition, citizens and permanent residents of Australia enrolling at all levels of study are eligible to pay tuition fees at the New Zealand domestic level. Any students in the above categories residing and studying outside New Zealand will be required to pay international tuition fees.

## Student Immigration

Full details of visa requirements, advice on rights to employment in New Zealand while studying and reporting requirements are available from Immigration New Zealand and can be viewed on their website at:

[immigration.govt.nz](http://immigration.govt.nz)

If you bring your spouse/partner and/or children with you to New Zealand, they will need their own visitor's visa, or student visa if they will also be studying.

Note that dependants of international students are required to pay international fees to attend New Zealand primary and secondary schools or tertiary institutions.

However, the dependants of PhD students are treated as New Zealand domestic students for the purpose of fee payment at New Zealand primary and secondary schools. You are advised to check the cost of schooling before accepting a place at the University of Otago if you will be accompanied by school-aged children.

## Work Rights

Semester work rights of up to 20 hours per week are available to full-time international students enrolled in courses taking at least two years to complete, or courses culminating in a New Zealand qualification that would qualify for points under the Skilled Migrant Category. Full-time students enrolled for at least one academic year as part of an approved exchange scheme are also eligible for term-time work rights. Summer holiday rights to work full-time are available to any full-time international students enrolled in a programme of more than 12 months' duration. Open work visas are available to eligible partners of postgraduate students.

International students who have completed a qualification in New Zealand that would gain points under the Skilled Migrant Category and who do not have a job offer, may be eligible to apply for a 12-month graduate job search work visa.

Students with a job offer relevant to their qualification and who successfully completed a qualification in New Zealand that would gain points under the Skilled Migrant Category, may be granted a work visa valid for up to two years.

A work visa for up to three years may be awarded if students are working towards obtaining a membership or registration from a New Zealand professional association that requires more than two years of relevant practical work experience (e.g. New Zealand Institute of Chartered Accountants).

## Eligibility for Health Services

Most international students are not entitled to publicly-funded health services while in New Zealand. If you receive medical treatment during your visit, you may be liable for the full costs of that treatment. Full details on entitlements to publicly-funded health services are available through the Ministry of Health, and can be viewed on their website at:

---

[moh.govt.nz](http://moh.govt.nz)

## Accident Insurance

The Accident Compensation Corporation provides accident insurance for all New Zealand citizens, residents and temporary visitors to New Zealand, but you may still be liable for all other medical and related costs. Further information can be viewed on the ACC website at:

---

[acc.co.nz](http://acc.co.nz)

## Medical and Travel Insurance

It is compulsory for international students to have comprehensive medical and travel insurance while studying in New Zealand. Enrolment at Otago is conditional on showing evidence of comprehensive medical and travel cover. Current instructions and advice on how to obtain adequate cover can be found on the Otago website:

---

[otago.ac.nz/international/healthcare.html](http://otago.ac.nz/international/healthcare.html)

## Representative Offices

The University has representatives in many countries around the world. A full listing can be obtained from the University's website:

---

[otago.ac.nz/international/agents](http://otago.ac.nz/international/agents)

# Otago Global Student Exchange

The University of Otago has formal exchange agreements with many institutions worldwide, allowing for reciprocal exchange of students.

Further information is available at:

[otago.ac.nz/study/studentexchange](http://otago.ac.nz/study/studentexchange)

If you are enrolled at an institution listed below, please contact your home institution's international office for further information on selection procedures.

If your university does not have an exchange agreement with the University of Otago, you are welcome to apply as a Study Abroad student:

# Application and Costs

---

This section contains entrance, application and cost information for international students. International students include:

- ~ all students who require student visas to study in New Zealand
- ~ all individuals on New Zealand work visas enrolling for part-time study
- ~ all students, other than New Zealand citizens, enrolled in distance-taught programmes and resident outside New Zealand.

All students in the above categories should direct application enquiries to:

---

International Division  
University of Otago  
PO Box 56  
Dunedin 9054  
New Zealand  
Tel 64 3 479 8080  
Email [international.enquiries@otago.ac.nz](mailto:international.enquiries@otago.ac.nz)  
Website [otago.ac.nz/international](http://otago.ac.nz/international)

If you have residency or citizenship of Australia and are seeking to study on campus in New Zealand, please browse the University's website for further information: [otago.ac.nz/study](http://otago.ac.nz/study) or email: [university@otago.ac.nz](mailto:university@otago.ac.nz)

---

# Entrance Requirements

## UNDERGRADUATE ENTRANCE REQUIREMENTS

To be eligible for entry to undergraduate programmes all students must hold qualifications that are acceptable to the University of Otago. In New Zealand, university entrance is normally gained through the New Zealand National Certificate of Educational Achievement (NCEA). The University recognises many other qualifications as equivalent to the New Zealand qualification for entrance and some of these are listed below.

### A. INTERNATIONAL QUALIFICATIONS

<b>African, Middle East, South American countries</b>	One year of successful study at a recognised institution of university standing.
<b>Australia</b>	Australian Year 12 qualification with an appropriate ranking score (see Grade Requirements table on page 63).
<b>Bangladesh</b>	One year of successful study at a recognised institution of university standing.
<b>Canada</b>	Canadian High School Graduation with a minimum overall grade average of 70%. Specific requirements may vary from Province to Province.  Ontario Secondary School Diploma with a minimum average of 70% in six subjects in Grade 12 (see Grade Requirements table on page 63).
<b>China</b>	Senior High School graduation and one year of successful study at a recognised institution of university standing; or Senior High School graduation and completion of a diploma with high passing grades at a recognised institute or university.
<b>Denmark</b>	Studentereksamen (Gymnasium, HHX – Højere Handeleksamen, HTX – Højere Teknisk Eksamen) or Højere Forberedelseksamen.
<b>Fiji</b>	Minimum of 270/400 (including English) in the Fiji Form VII Examination (see Grade Requirements table on page 63).
<b>France</b>	Baccalauréat Général.
<b>Germany</b>	Abitur or Zeugnis der Fachgebundenen Hochschulreife or Zeugnis der Fachhochschulreife.
<b>Hong Kong</b>	Completion of the Hong Kong Diploma of Secondary Education (HKDSE) with achievement at Level 4 or higher in English and at least two elective subjects, and Level 3 or higher in two other subjects (excluding Chinese language).
<b>Hungary</b>	Érettségi.
<b>India</b>	One year of successful study at a recognised institution of university standing; or a minimum overall average of 75% in the Indian School Certificate or the All-India Senior School Certificate with a minimum of 70% in English (see Grade Requirements table on page 63).
<b>Indonesia</b>	One year of successful study at a recognised institution of university standing.
<b>Iran</b>	One year of successful study at a recognised institution of university standing.
<b>Israel</b>	Bagrut (Matriculation) or Mechina.
<b>Japan</b>	One year of successful study at a recognised institution of university standing; or completion of a junior college diploma of two or three years' duration (for admission to general degrees only).

<b>Malaysia</b>	Minimum of three STPM “Principal” level subjects with appropriate grades (see Grade Requirements table on page 63). All passes must be gained in one sitting.  A maximum of 15 points over six academic subjects, including one of Advanced Mathematics, Physics or Chemistry, in the Senior Middle III Examination (UEC) of the Malaysian Independent Chinese Secondary Schools System.
<b>Netherlands</b>	VWO-Gymnasium A or B; VWO-Atheneum A or B.
<b>Norway</b>	Vitnemål fra den Videregående Skole with appropriate grades (see Grade Requirements table on page 63).
<b>Pakistan</b>	One year of successful study at a recognised institution of university standing.
<b>Philippines</b>	One year of successful study at a recognised institution of university standing.
<b>Samoa</b>	A minimum of B3 (60%) average over 8 papers (including English A) in the University Preparatory Year of the National University of Samoa.
<b>Singapore</b>	Passes at Advanced Level with appropriate grades (see Grade Requirements table on page 63).
<b>South Africa</b>	Completion of the National Senior Certificate (NSC) with appropriate grades.
<b>South Korea</b>	Completion of High School Leaving Certificate plus one year’s successful study at a recognised institution of university standing, with good passing grades.
<b>Sri Lanka</b>	A minimum of three Sri Lankan Advanced Level subjects taken at one sitting with appropriate grades (see Grade Requirements table on page 63.)
<b>Sweden</b>	Slutbetyg Från Gymnasieskolan with grades of VG or MVG.
<b>Taiwan</b>	One year of successful study at a recognised institution of university standing.
<b>Thailand</b>	One year of successful study at a recognised institution of university standing.
<b>United Kingdom</b>	Three passes at Advanced Level taken at one sitting with appropriate grades (see Grade Requirements table on page 63). In Scotland, appropriate passes at Higher Level are acceptable. BTEC National Diploma at Level 3 with appropriate passes will be considered on a case-by-case basis.
<b>USA</b>	High School Graduation Diploma with minimum B grade average and appropriate SAT Reasoning Test scores (see Grade Requirements table on page 63) or a minimum ACT composite score of 24.
<b>Vietnam</b>	One year of successful study at a recognised institution of university standing.
<b>Worldwide</b>	International Baccalaureate (Full Diploma) awarded with a minimum of 26 points.

The minimum requirement for students from many countries not listed is the completion of a high school qualification plus satisfactory completion of one year’s study at an approved tertiary institution.

Entry requirements are constantly reviewed and the University reserves the right to amend the above requirements at any time.

---

## **B. INTERNATIONAL STUDENTS STUDYING IN NEW ZEALAND SECONDARY SCHOOLS – NCEA AND CIE**

### **I) NCEA ENTRANCE REQUIREMENTS**

NCEA is the New Zealand National Certificate of Educational Achievement. In 2015, you will be qualified for entrance to the University of Otago if you have obtained:

- NCEA Level 3, and
- 14 credits at Level 3 or higher in each of three subjects from an approved list.

You must also meet literacy and numeracy requirements:

- Literacy: 10 credits at Level 2 or above in standards from the specified list, with at least 5 credits in Reading and 5 credits in Writing
- Numeracy: 10 credits at Level 1 or above, made up of
  - achievement standards – specified achievement standards available through a range of subjects, or
  - unit standards – package of three numeracy unit standards (26623, 26626, 26627 – all three required).

Note that if you are an NCEA student, only the NCEA literacy requirement above will be acceptable. You cannot use IELTS, TOEFL or similar tests to replace the NCEA literacy requirement.

Applicants for Physical Education and Law will be assessed on a case-by-case basis. Applicants for the Health Sciences First Year course are strongly recommended to have achieved at a much higher level than the minimum standards quoted above.

If you are applying to the University of Otago using NCEA as your method of admission you do not need to supply your forecast results with your application form.

Final NCEA examination results will be automatically supplied to the University of Otago in mid-January.

### **II) CIE ENTRANCE REQUIREMENTS (FROM NEW ZEALAND SCHOOLS)**

Cambridge International Examinations (CIE) are offered in some New Zealand secondary schools. In 2015 you will be qualified for entrance to the University of Otago if you have:

- a minimum of 120 points on the UCAS Tariff\* at A or AS level other than the General Paper, including at least three different syllabus groups (other than Thinking Skills) in which no grade is lower than D
- an E grade or better in any one of AS English Language, AS Literature in English or AS Language and Literature in English and a D grade or better in IGCSE or GCSE Mathematics.

Note: You cannot use results from tests such as IELTS or TOEFL to satisfy literacy requirements.

A candidate may also fulfil the literacy and/or numeracy requirements through appropriate NCEA credits as detailed above.

Applicants for Physical Education, Law and Teaching will be assessed on a case-by-case basis. Applicants for the Health Sciences First Year course are strongly recommended to have achieved at a much higher level than the minimum standards quoted above.

\* The UCAS tariff may be found at [www.ucas.ac.uk/candq/tariff](http://www.ucas.ac.uk/candq/tariff)

For more information see:

[otago.ac.nz/study/entrance/otago031475.html](http://otago.ac.nz/study/entrance/otago031475.html)

## **C. INTERNATIONAL STUDENTS STUDYING IN THE UNIVERSITY OF OTAGO FOUNDATION YEAR**

If you do not hold an acceptable qualification for undergraduate admission, you may qualify for admission to the University by completing the University of Otago Foundation Year Certificate. More detailed information can be found on page 47 of this prospectus and on the Foundation Year website:

[otago.ac.nz/uolcfy](http://otago.ac.nz/uolcfy)

Grade requirements for entry to specific degree programmes are detailed on page 63.

## **Admission to Undergraduate Health Science Professional Programmes**

At the time of printing it was not possible to confirm the number and availability of places for international students in the second year of the following Health Science professional programmes in 2016: Bachelor of Dental Surgery, Bachelor of Pharmacy, Bachelor of Physiotherapy, and Bachelor of Medical Laboratory Science. Intending applicants for the 2015 Health Sciences First Year Course are advised to gain up-to-date information by browsing the University's website at:

[otago.ac.nz/international](http://otago.ac.nz/international)

Students who have already undertaken university study cannot normally apply for the Health Sciences First Year.

## **Postgraduate Entrance Requirements**

General guidelines on admission to postgraduate programmes can be found on pages 10-11. In addition, specific requirements for individual programmes may be listed on pages 16-45 of this prospectus.

## GRADE REQUIREMENTS FOR UNDERGRADUATE DEGREE PROGRAMMES 2015

	INTERNATIONAL RESULTS										NZ/AUSTRALIA RESULT

# Entry is competitive to the first year. Attainment of the minimum grade requirement does not guarantee that an Offer of Place will be made.

\* These programmes have a limited number of places from the second year of University study. Admission to the second year requires satisfactory completion of an intermediate year. The grades listed are achievement levels for students entering the first year programme. Achievement of the minimum grade requirement does not guarantee that students will be competitive in entry to second year classes.

^ It is recommended that applicants have taken Chemistry and Physics as part of their matriculation/foundation study.

\*\* Additional entry criteria and an interview may be required for admission.

## Explanation of qualification and grades

<b>A-Levels</b>	<p><b>All countries except Singapore.</b></p> <p>The numerical scores are normally calculated on the best three A-Level principal subjects (excluding the General Paper) taken at one sitting, or two A-Level passes with two A-Level Subsidiary passes at one sitting.</p> <p>(i) Scores for the Advanced levels are calculated on the basis that: A = 5, B = 4, C = 3, D = 2, E = 1</p> <p>(ii) Scores for the Advanced Subsidiary level results are calculated on the basis that: A = 2.5, B = 2, C = 1.5, D = 1, E = 0.5</p>
<b>Singapore</b>	Same as above except that the numerical scores are normally calculated on three H2 Level academic subjects taken at one sitting; or a minimum two H2 Level academic subjects taken at one sitting and two appropriate H1 Level academic subjects.
<b>STPM</b>	<p>Sijil Tinggi Persekolahan Malaysia</p> <p>The grade point average is normally calculated on the best three STPM principal subjects (excluding the General Paper) taken at one sitting: A = 4, A- = 3.67, B+ = 3.33, B = 3.0, B- = 2.67, C+ = 2.33, C = 2.0, C- = 1.67, D+ = 1.33, D = 1.0.</p>
<b>Ontario OSSD</b>	Ontario Secondary School Diploma. The score is calculated as an average of six Grade 12 University Preparation (4U) Courses or University/College Preparation (4M) Courses.
<b>IB</b>	International Baccalaureate
<b>SAT</b>	<p>SAT Reasoning Test</p> <p>University admission is granted on the basis of a completed US High School diploma with a B average and the required SAT score.</p>
<b>India</b>	<p>All India Senior School Examination (CBSE)</p> <p>Indian School Certificate Examination (CISCE)</p> <p>The scores are calculated on the best four academic subjects excluding local languages and non-academic subjects.</p>
<b>Fiji Form VII</b>	<p>The score represents the total of the best three academic subjects plus English.</p> <p>No subject should be below 50%. 70% in Chemistry is recommended for admission to first year Otago Chemistry papers.</p>
<b>Norway</b>	Vitnemål fra den Videregående Skole (Certificate of Upper Secondary Education)
<b>ATAR</b>	Australian Tertiary Admission Rank
<b>Otago Foundation Year</b>	<p>University of Otago Foundation Studies Certificate</p> <p>In addition to achieving the required Grade Point Average (GPA) students must meet a specific English grade requirement. For full details please refer to the University of Otago Foundation Year website: <a href="http://otago.ac.nz/uolcfy">otago.ac.nz/uolcfy</a></p>

## English language requirements

All courses at the University of Otago are taught and examined in English. If your first language is not English, you must provide evidence of a satisfactory level of English language proficiency. You should include with your application a certified statement of results from an accepted English language test that has been taken within two years of the commencement of your proposed course.

### UNDERGRADUATE

The minimum requirements for undergraduate study are:

- a) International Tests
  - IELTS (International English Language Testing System) score of 6.0 in the academic module (with no individual band below 6.0)
  - Paper-based TOEFL (Test of English as a Foreign Language) score of 550 (TWE 4.5)
  - Internet-based TOEFL score of 80 (writing 20)
  - Cambridge Certificate in Advanced English (CAE) – minimum of 58
  - Cambridge Certificate of Proficiency in English (CPE) minimum of 50
  - GCE 'A' Level General Paper (English) – Grade C or higher
  - APIEL (Advanced Placement International English Language) Examination - Grade 3
  - International Baccalaureate – English at Higher or Standard level in Language A: literature, Language A: language and literature, or at Higher Level in Language B
- b) University of Otago
  - University of Otago 'English for Otago' with a grade of C or higher
- c) Denmark
  - 6 in A-level English or 9 in B-level English for the Upper Secondary School Diploma (Studentereksamen, HHX, HTX and HFX (HF))
- d) Fiji
  - Fiji Form VII English score of 50% or higher
- e) Germany
  - Abitur English minimum score of 7 plus DAAD English language test with minimum B in all sections
- f) Hong Kong
  - Level 4 or better in English language in the Hong Kong Diploma of Secondary Education (HKDSE)
- g) India
  - 70% in English for the All India Senior School Certificate (CBSE) or the Indian School Certificate (CISCE)
- h) Malaysia
  - GCE 'O' Level English 1119 – Grade B4 or higher
- i) Netherlands
  - Grade 7 in the VWO-Gymnasium or the VWO-Atheneum A or B
- j) New Zealand
  - NCEA and CIE English guidelines can be found on page 62.

- k) Norway
  - Grade of 4.0 or higher in English in the student's final year of studying high school English
- l) Samoa
  - A score of B3 (60%) in English A in the University Preparatory Year of the National University of Samoa
- m) Singapore
  - GCE 'O' Level English – Grade C or higher
- n) Sweden
  - A grade of VG or MVG in English A and B in the Slutbetyg Från Gymnasieskolan.

Some programmes require higher levels of achievement than the minimum requirements listed above:

- Bachelor of Teaching – IELTS of 7.0 in the academic module with no individual band below 7.0.
- Bachelor of Oral Health – IELTS of 7.0 in the academic module with no band below 6.0.

### POSTGRADUATE

The minimum requirements for postgraduate study are:

- University of Otago Language Centre Postgraduate 'English for Otago' – Grade C or higher
- IELTS (International English Language Testing System) score of 6.5 in the academic module (with no individual band below 6.0)
- Internet-based TOEFL score of 95 with a minimum writing score of 22
- Paper-based TOEFL (Test of English as a Foreign Language) score of 587 (TWE 4.5)
- Cambridge Certificate of Proficiency in English (CPE) – minimum of 50
- APIEL (Advanced Placement International English Language) Examination – Grade 4.

Some programmes require higher levels of achievement than the minimum requirements listed above. Please refer to [otago.ac.nz/international/postgraduate](http://otago.ac.nz/international/postgraduate) for further details.

Students enrolling in courses leading to the Diploma for Graduates (regardless of content or endorsement) must meet the standard postgraduate English requirements above.

### ENGLISH LANGUAGE PREPARATION

If your English proficiency does not yet meet the required standard you may take pre-session courses in English at the University of Otago Language Centre (UOLC):

[otago.ac.nz/uolcfy](http://otago.ac.nz/uolcfy)

## Application

The University operates an online application and enrolment system called eVision. Guidelines on application procedures are available from the University's website:

[otago.ac.nz/international](http://otago.ac.nz/international)

eVision allows you apply online and supply relevant documentation as part of the online application process. You will be guided through the process as you go.

The text below provides some key information before you commence the online application process.

### APPLICATION CLOSING DATES

#### A. COURSEWORK PROGRAMMES

All coursework programmes can be commenced in the first semester (February). Many coursework programmes, excepting Health Science professional programmes at the undergraduate level, can also be commenced in the second semester. A second semester start may not be possible for all subject majors. Please check the course information pages 16-45 for details on relevant intakes for programmes offered by the University.

You are encouraged to apply as early as possible in order to be sure of a place in your chosen course, and for the University to be able to assist with your accommodation arrangements well in advance of your arrival.

##### First semester (February)

Applications close **31 October** but late applications, not requiring evaluation for credit, may be considered until **1 December**.

##### Second semester (July)

Applications close **30 April**.

##### Summer School (January)

Applications close **31 October**.

*Some programmes will require the completion of additional forms or the supply of additional documentation. You will be informed about these requirements as you go through the application process.*

#### B. RESEARCH-ONLY PROGRAMMES

Applicants for research-only (thesis) programmes may commence study at any time of the year and may make an application throughout the year. However, it is anticipated that most candidates will commence study at the beginning of either semester.

## IMPORTANT APPLICATION INFORMATION

#### A. QUALIFICATION EVALUATION

If you are applying for study and have partially or fully completed tertiary qualifications from countries or territories other than those listed below, you need to provide an Educational Credentials Evaluation (ECE):

All member countries of the European Union

Australia

Canada

Fiji

Hong Kong

Japan

Malaysia

Norway

Singapore

South Africa

South Korea

Switzerland

United States of America

Students who lodge their applications through one of the University's approved agents may be eligible for an exemption from an Education Credentials Evaluation (ECE). In order to be eligible for this exemption, the University requires agents to provide additional information to assist in the evaluation of an application for admission. If the information provided is deemed to be insufficient for admission purposes, the University of Otago reserves the right to request an ECE.

If an ECE is required, you must submit your qualifications to:

Education Credentials Evaluation

PO Box 514070

Milwaukee

Wisconsin 53203-3470

United States of America

Tel 1 414 289 3400

Fax 1 414 289 3411

Email [Eval@ece.org](mailto:Eval@ece.org)

Web [ece.org](http://ece.org)

You have to request and pay for the course by course evaluation option, with you and the University each receiving a copy of the resulting evaluation report. This evaluation is an important part of the University's admissions process, and helps to ensure that the University is admitting qualified candidates. The application form can be downloaded from the ECE website at: [ece.org](http://ece.org)

Please note that your application cannot be processed until the evaluation report is received.

You will receive information about the ECE requirement as you go through the online application process.

B. APPLICATION FOR A RESEARCH-ONLY PROGRAMME (MASTER'S BY THESIS OR PhD)

**Applicants for research-only study are expected to have contacted a supervisor and obtained approval in principle prior to making application.** It is recommended that you first look at the website pages for the relevant department and gather as much information as possible prior to putting together a proposal for research.

General information on research study can be found at [otago.ac.nz/study/masters](http://otago.ac.nz/study/masters) and [otago.ac.nz/study/phd](http://otago.ac.nz/study/phd)

C. APPOINTMENT OF AGENT

If you are submitting your application through an agent, you are advised to check before submission that the agent is an authorised agent of the University of Otago. A full list of authorised University agents can be found on the University's website:

[otago.ac.nz/international/agents](http://otago.ac.nz/international/agents)

Applications submitted through non-authorised agents will not normally be processed.

D. SCHOLARSHIPS FOR POSTGRADUATE STUDENTS

Full details on the availability of scholarships and the processes for application can be found on the University's website: [otago.ac.nz/study/scholarships](http://otago.ac.nz/study/scholarships). Application for scholarship can normally be made at the same time as you are making your academic online application.

E. CERTIFICATION OF DOCUMENTS

Certified/notarised translations of original documents are required where these are not in English. If original documents are not being provided all copies should be certified/notarised by an authorised authority such as Registrar, Notary Public, Justice of the Peace or Solicitor. Failure to provide certified/notarised documents will result in a delay in the assessment of your application.

## OFFER/ACCEPTANCE

All applications will be acknowledged and assessed for eligibility. In addition, applications for PhD study will be assessed by the Graduate Research Committee.

The application processing time can be up to:

- two weeks for undergraduate programmes not requiring credit evaluation
- five weeks for undergraduate coursework programmes requiring credit evaluation
- three to six weeks for postgraduate coursework programmes
- two months for programmes that are research only.

Application processing times can be affected by failure to provide all required documentation.

Successful applicants will be sent a conditional or unconditional Offer of Place.

---

## 2015 International tuition fees

International tuition fees are detailed on the course information pages of this prospectus. The notes below provide further explanatory information on how tuition fees are charged and important policies associated with these fees.

- 1 All fees are inclusive of GST (New Zealand Goods and Services Tax).
- 2 Tuition fees do not include any of the University's sundry charges. Please see the table below for indicative sundry charges.
- 3 Tuition fees do not include any of the University's administrative charges.  
  
2015 administrative fees will be set in late 2014, please see [otago.ac.nz/study/fees](http://otago.ac.nz/study/fees)
- 4 The tuition fees detailed on pages 16-45 provide an estimate of costs for 2015. The tuition fees listed may not represent the actual cost of a programme of study. Generally, a student's total tuition is made up of the collective fees for each paper for which the student is enrolled. The subject category fee (as listed in this schedule) and the EFTS (funding equation) value will determine the fee of any paper. The actual programme fee will be affected by:
  - the enrolment for more or less than 1 EFT (a normal full-time course)
  - the inclusion of papers from different subject areas (which are at different fee rates)
  - the sequencing of enrolment in papers within the course
  - a change to the structure of the course and the availability of papers.
- 5 Tuition fees are assessed each year. The fee categories are applicable only to the calendar year (January-December) in which the course is commenced. If a course of study extends for one or more semesters in a subsequent calendar year(s), the students will be required to pay the tuition fee applicable for that calendar year(s). Annual fee increases (or decreases) are expected to be modest. Under current circumstances this would be in the order of up to 5% per annum.

- 6 An orientation programme will be held before enrolment. There will be no extra charge for participation in this programme.
- 7 Costs for some course materials, field trips and thesis publication are not included in the quoted fees.
- 8 The following students are normally eligible to enrol at the University of Otago under the same conditions as New Zealand students and at the same level of fees:
  - Australian citizens and permanent residents of Australia residing and studying in New Zealand for the duration of their courses of study
  - Citizens of the Cook Islands, Niue and Tokelau who are New Zealand citizens.  
Australian citizens and permanent residents of Australia residing and studying outside New Zealand are required to pay full-cost international fees.
- 9 Students who have been granted study awards or scholarships by Rotary International, Commonwealth Scholarship Scheme, Fulbright Awards, or DAAD pay equivalent New Zealand fees only.
- 10 Most PhD and certain other doctoral students enrolling at a New Zealand university are eligible to pay tuition fees at the New Zealand domestic level. International doctoral students must be resident in New Zealand during their studies, apart from approved temporary absences overseas for the purposes of doctoral research, to be classified as domestic students. As a guide, the table on the next page provides 2014 domestic tuition rates.
- 11 Postgraduate fees for 2015 reflect a level of subsidy from the University in recognition of the valuable contribution that is made by postgraduate students to University research.

## Student services fee

The University of Otago is required by Government regulation to ensure a range of services are available to students and these are funded through the charging of the Student Services Fee.

In 2014, the Student Services Fee (GST inclusive) for Dunedin on-campus students is \$685.00.

Students whose course is delivered at the other University of Otago campuses (Wellington, Christchurch and Southland) are charged a Student Services Fee of \$124.00. Distance students are not charged a Student Services Fee as there is no access to services for these students.

## New Zealand domestic tuition fees

(see notes 8-10 on page 68)

The main fee bands listed below provide an estimate of the fees payable by postgraduate students in 2014. Domestic tuition fees for 2015 will be set in late 2014.

Tuition fees for Subject Categories (per 1.0 EFTS)

POSTGRADUATE THESIS	NZ\$
Arts, Languages, Theology, Mathematics	\$5,911
Commerce	\$5,698
Law	\$6,391
Computer Science, Design, Geography, Information Science, Music, Science	\$6,901
Health Sciences, Pharmacy, Surveying	\$8,754
Medicine	\$8,754
Dentistry (non-clinical)	\$8,933

Up-to-date information on New Zealand domestic tuition fees, sundry and administrative fees can be found on the University's website at: [otago.ac.nz/study/fees](http://otago.ac.nz/study/fees)

---

## Fees refund policy

Please note that policies and deadlines detailed below are subject to change. Up-to-date policies are available from the University's website.

### 1. FULL FEES REFUND

Fees may be refunded in full, less a refund fee, where a student has completed the enrolment process, under the following conditions:

- a) the University withdraws an offer of a place or is unable to provide the entire degree or diploma programme
- b) a student is unable to obtain a student visa and permit
- c) a student fails to meet the condition of an Offer of Place
- d) a student formally withdraws from study by:
  - 12 January – for Summer School papers
  - 13 March – for first semester papers
  - 20 March – for full year papers
  - 24 July – for second semester papers.

If an Offer of Place is withdrawn on the basis of incorrect or incomplete information supplied by the student, the University reserves the right to retain up to 10% of the tuition fee (if already paid).

### 2. PARTIAL REFUND OF FEES

A student may formally withdraw after the above dates, and may receive up to a 50% refund of tuition fees in exceptional circumstances only (sundry, any agency or commission fees and administration fees are non-refundable). In these cases, withdrawal must be completed by:

- 2 February – for Summer School papers
- 1 May – for first semester papers
- 11 September – for second semester and full-year papers.

“Exceptional circumstances” are defined as circumstances that are beyond the control of the student, and include illness supported by a New Zealand medical certificate.

### 3. GENERAL REFUND CONDITIONS

- a) Any additional costs incurred by the University for external clinical placements will be deducted from any refund.
- b) No refunds are given for students who discontinue study after the official withdrawal dates.
- c) Once a student has completed enrolment they are deemed to be attending their chosen course of study. Failure to attend is not grounds for deletion of enrolment after the due dates with entitlement to a refund.

## Change of residential status

- a) International students who are granted New Zealand residency while enrolled may be eligible to pay domestic fees for the current and subsequent years (see below). Proof of change of residential status can be demonstrated only by presenting an original passport with residency visa stamp.
- b) To be considered for a refund of tuition fees to the equivalent domestic fee level, the date of award of the residence visa (as printed on the visa) must be prior to:
  - 12 January 2015 for Summer School papers
  - 13 March 2015 for first semester papers
  - 20 March 2015 for full year papers
  - 24 July 2015 for second semester papers.

Award of the residence visa after these dates will mean ongoing charging at the international tuition rate for the duration of the paper(s).

International students with pending New Zealand residency are advised to seek advice from the University about their situation prior to enrolment.

## Fee protection policy

The University is governed by the Public Finance Act, the Education Act, and University Council regulations in regard to student fees. An individual fee account is maintained for each enrolled student. In the event that the University is not able to offer an academic programme for the semester intake indicated on the student's Offer of Place, all funds will be refunded to the student. Further information on the University's refund policy for international students can be found above.

## Living costs for 2015

The table below provides an estimate of living costs in NZ\$ and is based on 2014 charging. The costs assume a single student on campus for a period of forty weeks (one academic year).

Actual accommodation costs will be supplied once you have been accepted for study at Otago.

	Residential College	Shared Flat
	NZ\$	NZ\$
Accommodation Fee	13,034	–
Rent (52 weeks @ \$110-140)	–	5,720-7,280
Food (40 weeks @ \$70)	–	2,800
Gas/Electricity, Internet (52 weeks)	–	1,200
<b>Total for Accommodation</b>	<b>13,034</b>	<b>9,720-11,280</b>
Personal Costs (40 weeks @ \$60)	2,400	2,400
Entertainment (40 weeks @ \$40)	1,600	1,600
Medical and Travel Insurance	585	585
<b>Total</b>	<b>17,619</b>	<b>14,305-15,865</b>

### NOTES:

1. Residential College contracts are normally for 38 weeks. Some Colleges may charge a higher fee than the fee listed in the table.
2. In addition to the accommodation fee, the Residential Colleges charge a small amenity fee.
3. Food costs reflect the purchase of some lunches and takeaways. If all cooking is done in the flat they could be reduced.
4. Personal costs vary considerably depending on lifestyle. The estimate represents a restrained style of living.
5. This estimated budget does not include travel costs or any significant personal expenditure items.

---
